All material, workmanship, and equipment shall be subject to the inspection and approval of the Public Safety Department.

It is a vendor responsibility to ensure that the County has received the latest version of any MSDS required by 29 CFR 1910.1200 with the first shipment of any hazardous material. Also, at any time the content of an MSDS is revised, the vendor shall promptly provide a new MSDS to the County with the new information relevant to the specific material.

The County's authorized representative shall generate and issue a Work Order for each project to be performed under the contract resulting from this solicitation. The Work Order shall include the location, description and plans, if necessary, covering the scope of work to be completed. The Work Order shall also include a cost estimate calculated by the County for the work listed on the Work Order. This estimate shall be based on the unit or other pricing established in the basic contract. For purposes of identification and payment, the Work Order shall be numbered and dated. The preliminary Work Order describing the description of work and cost estimates shall be issued to the vendor(s) which have been qualified to perform work under this solicitation and resulting contract. The vendor(s) shall be required to supply the County's authorized representative with a written price offer within a time frame specified by the County. If multiple

vendors are solicited, the County shall select the lowest price offer; provided that the price does not exceed the dollar estimate calculated by the County. If a single vendor is solicited, the price offer shall be evaluated and, if appropriate, accepted; provided that the price does not exceed the dollar estimate calculated by the County. The selected vendor's name shall then be entered on the Work Order and that order will then be issued to the vendor. The Work Order shall also direct the vendor to commence work on a certain day and it shall specify the amount of time allotted for completion of work covered by the Work Order. All work covered by a Work Order shall constitute a Contract Schedule.

The vendor shall be required to furnish price lists (printed or microfiche) upon request from the Public Safety Department at no charge. This price list shall provide descriptive literature, technical data and service information for items awarded. Time of delivery for these lists shall be mutually agreed upon by the vendor and the County.
