Subject: LAW ENFORCEMENT TRUST FUND REQUEST
SECURITY / Q STAR FLASHCAM CAMERA

This memorandum is being submitted to request the expenditure of LETF dollars for the purchase of capital equipment for use in the Dania Beach District.

This request is for the purchase of one Q Star FlashCam-880 SX digital camera system. As the city moves forward with different crime initiatives and beautification projects, it is imperative that we continue to protect those areas and other parts of the city that have been affected by vandalism, graffiti, and illegal dumping. The Q Star FlashCam system is a system that will aid law enforcement in deterring those acts as well as capturing the images of those who are attempting to commit such acts. This is another resource for the Broward Sheriff's Office Dania Beach District to preserve and enhance the quality of life for its residents and visitors. Currently over 100 municipalities in the United States, Canada, and the United Kingdom employ the use of such systems to deter these types of acts and undesirable behavior. The bright flash, combined with a voice message, will send a warning that their picture and activity is being recorded. A unique feature of this system is its portability and ruggedness, it is solar powered and has proven to be an effective deterrent against crime. If approved the total amount of this request would not exceed \$7000.00 and the quote from Q-Star Technology is attached. Additionally, I have attached our most recent LETF Fund Balance Sheets showing a balance of \$11,648.77 in state funds and \$137,835.30 in federal funds.

I would appreciate it if you would favorably endorse this request and I am prepared to discuss this matter with you at your convenience.

/kg
