COMMUNITY DEVELOPMENT DEPARTMENT  
STAFF REPORT**

**DATE:** May 13, 2014

**TO:** Robert Baldwin, City Manager

**VIA:** Marc LaFerrier, AICP, Director *[Signature]*

**FROM:** Corinne Lajoie, AICP, Principal Planner, LEED G.A. *CM Lajoie*

**SUBJECT:** **TX-31-14:** The applicant, City of Dania Beach, is requesting several zoning text amendments to the City's Unified Land Development Code, known as OneCode (FIRST READING).

**REQUEST**

**TEXT AMENDMENT**

1. Academic schools & colleges will now be permitted as a special exception use in all zoning districts where it was previously permitted by right; Section 105-20.
2. Amend farmers market to require a parking plan instead of parking consistent with retail requirements; Section 105-240.
3. Add Community garden to the City Center, East Dania Beach Boulevard Mixed Use, South Federal Highway Mixed Use, Gateway Mixed Use Neighborhood Mixed Use zoning districts; Section 110-20.
4. Permitting brewpub, microbrewery and craft distillery with tasting room as a special exception use in the City Center, East Dania Beach Boulevard Mixed Use, South Federal Highway Mixed Use, and Neighborhood Mixed Use zoning districts; Section 110-20 and Section 302-10.
5. Added tasting rooms associated with microbrewery or brewpub to the exempt from separation requirements; Section 110-50.
6. Add fleet parking with conditions in the Industrial Research Office, Marine Airport Approach and Industrial General zoning district; Section 115-40.
7. Permit watchman or caretaker dwelling unit as accessory use in all industrial zoning districts; Section 115-40.
8. Change incorrect section reference in permitted yard encroachment; Section 215-50.
9. Add setbacks for patio and decks when not associated with a pool; Section 215-50.
10. Add residential care facilities as a special exception use in Community Facility zoning districts; Section 330-20.
11. Update and amend the park impact fees; Article 810.

On September 14, 2010, the City Commission approved the City's new Land Development Code referred to as OneCode. As staff continues to use the new regulations, scrivener's errors, inaccuracies and vague, imprecise or ambiguous language begins to emerge, some of which staff is proposing to address at this time. In addition, over time any set of regulations begins to get antiquated unless periodically updated.

The following amendments to the Unified Land Development Code are proposed:

1. **ACADEMIC SCHOOLS & COLLEGES.** The proposed text amendment will change academic schools and colleges from a permitted use to a special exception use in all zoning districts where it was previously permitted by right. This will allow staff to insure adequate traffic and pedestrian circulation is available prior to approval.
2. **FARMERS MARKET.** The proposed amendment requires a parking plan instead of parking consistent with retail requirements. This will make future expansion efforts more feasible.
3. **COMMUNITY GARDEN.** This amendment will add the community garden use to the City Center, East Dania Beach Boulevard Mixed Use, South Federal Highway Mixed Use, Gateway Mixed Use, and Neighborhood Mixed Use zoning districts. Today the use is only permitted in the residential districts. This amendment was requested by the CRA staff.
4. **BREW PUB/MICROBREWERY/CRAFT DISTILLERY.** This text amendment will permit brewpub, microbrewery, craft distillery and associated tasting rooms as a special exception use in the City Center, East Dania Beach Boulevard Mixed Use, South Federal Highway Mixed Use, and Neighborhood Mixed Use zoning districts. These are uses which staff has recently received several requests for. Today the uses are not permitted in the City. This amendment was requested by the CRA staff.
5. **TASTING ROOMS.** This amendment will allow tasting rooms associated with microbrewery, brewpub or craft distillery to be exempt from separation requirements.
6. **FLEET PARKING.** The amendment will add fleet parking of vehicles, with conditions, such as minimum separation from residential and landscape requirements adjacent to a street, in the Industrial Research Office, Marine-Airport Approach and Industrial General zoning districts; Section 115-40. This amendment was requested by the CRA staff.
7. **WATCHMAN OR CARETAKER DWELLING.** This text amendment will permit one watchman or caretaker dwelling unit as accessory use in all industrial zoning districts. This use is currently permitted in all commercial districts as an accessory use.
8. **YARD ENCROACHMENT.** This amendment will change an incorrect section reference.
9. **PATIO AND DECKS.** This text amendment is necessary to identify minimum setback requirements for patio and decks when not associated with a pool. Currently the only patio/deck reference is associated with pools.
10. **RESIDENTIAL CARE FACILITIES.** This amendment changes residential care facilities from a permitted use in the Community Facilities zoning district to a special exception use. This change will allow staff to ensure adequate buffering and circulation exists before new uses or expansions to existing uses occur.

11. **PARK IMPACT FEES.** This amendment will update and amend the park and recreation concurrency and impact fees to reflect changes in case law. The amendment will also result in a change to the way park impact fees are calculated. Today the fees are calculated based on the amount of land dedication required times the appraised value of the subject property. An outside consultant has recommended adopting a flat rate based on use. This amendment will enable this change, however the new rates will have to be adopted in a resolution separately. These fees will be assessed prior to issuance of a building permit, as is done today.

**PLANNING AND ZONING BOARD RECOMMENDATION**

On April 16, 2014 the Planning and Zoning Board, sitting as the Local Planning Agency, recommended approval of this request.

## **Introduction**

This Study documents the updating of the City of Dania Beach's Recreation and Open Space Impact Fee to current conditions. Florida Impact Fees are of one of two (2) types: "Consumption Based" and or "Improvements Based". The City of Dania Beach's Recreation and Open Space (ROS) Impact Fee utilizes the "Consumption Based" methodology for this update.

## **Population and Housing Characteristics**

The population of Dania Beach, Florida has grown from 13,183 residents in 1990 to 29,639 residents in the 2010 U.S. Census. Information on 2012 City population and housing characteristics was obtained from U.S. Census Bureau's American Community Survey 2008-2012 data set. This data provides information on dwelling unit type, occupancy, seasonal units and persons per household. Additional information was obtained from the Greater Fort Lauderdale Convention and Visitors Bureau to estimate the seasonal population. The resident population is consistent with the July 1, 2012 Census estimate excluding residents in group quarters. The weighted population estimate averages the resident population for 7 months with the peak season population for 5 months. Table 1 on the following page provides 2012 City population and housing characteristics.

Long range planning forecasts for the Broward Area Metropolitan Planning Organization project that residential growth will continue in the City. The Broward County Planning and Environmental Regulation Division published population and housing forecasts for Broward County and the County's municipalities in August 2012. Table 2 utilizes this information along with Table 1 to estimate 2032 population and household characteristics for the City of Dania Beach. Growth in seasonal units and hotel motel units is expected to continue in the future. The 2032 population estimates are rounded to the nearest one hundred population number.

### **Impact Fee Methodology**

The methodology for this Study establishes the current value of the City's recreation and open space facilities. The value includes land, improvements and contents. Any recreation and open space debt and grant funding is subtracted from the overall value. The resulting value is further reduced to account for past payments credits for vacant property. The Impact Fee has been calculated under two scenarios: for resident population only; and, for a weighted population that includes seasonal residents.

### **City Recreation and Open Space Facilities**

Information on the City's recreation and open space facilities has been tabulated using City and Broward County Property Appraiser information. The City's property schedule for insurance purposes was also reviewed. Table 3 provides the tabulation of City owned recreational and open space facilities. The Table does not include other sites, which may be leased. The land value utilized Property Appraiser information and is based on net acreage not gross acreage, which would include right of way. The improvement value and contents are based on the property schedule.

### **City Recreation Debt and Grants**

The City Finance Office provided information on recreation and open space debt and grants. The City initiated a General Obligation Bond for various improvement needs in 2005. Approximately 38.4% of the bond was related to recreation improvements. A bank loan was also used to fund Frost Park improvements. Approximately \$3.6 million dollars in debt is remaining on these two items. The City has also received grants for a variety of recreation and open space improvements. Grants have been obtained for P. Meli Park Aquatic Complex, C.W. Thomas Park, Wrice Center and Dania Cove. The grants received totaled approximately \$1.9 million dollars.

### **Per Capita Recreation and Open Space Cost**

Per capita cost for recreation and open space is provided in Tables 3 and 4. Table 3 is based on the 2032 resident population. Table 4 is based on the 2032 weighted population.

**Maximum Possible Recreation and Open Space Impact Fee**

Tables 1 through 4 provide information for determining the maximum Recreation and Open Space Impact Fee. Table 5 provides the persons per unit for different unit types and population characteristics. The Resident Population Based numbers do not incorporate the seasonal population and therefore, only apply to residential dwelling units. Resident Population Based numbers include single family (and townhouse) units, multi-family dwellings and mobile homes.

The Weighted Population Based numbers incorporate seasonal population and hotel/motel rooms. The information is based on averaging seven months of resident population with five months of peak season population.

## Recreation and Open Space Impact Fee Comparison

The recreation and open space impact fees for other Broward municipalities were reviewed. Table 6 provides a comparison of the maximum possible recreation and open space impact fees for Dania Beach with three (3) cities: Fort Lauderdale; Pompano Beach; and, Davie. These city fees are based on some differences with the proposed Dania Beach fee, but provide some basis for comparison on the proposed fee amount. The Fort Lauderdale fee is based on the size of a residential unit not the per capita basis. Pompano Beach has 3 different geographic sectors with each sector providing a different park fee. The Pompano Beach numbers included in Table 6 are based on the sector with the highest rate. The Davie multi-family rate is based on a multi-family density of 10 dwelling units per acre or higher.

**Conclusion**

The study demonstrates a need for recreation and open space for anticipated population growth in order to meet the existing Level of Service for recreation and open space in the City of Dania Beach. Should the City desire to create a recreation and open space impact fee to ensure that future growth pays its fair share of the need for new recreation and open space, this study provides the technical support for the maximum impact fee that may be adopted. The City may choose to implement a fee that is less than the maximum.

The study provides three alternative fees: one based on a fee assessed only to residential uses; the second fee is assessed to residential and hotel/motel uses; and, the final alternative fee is assessed to residential and hotel/motel uses at 90% of the maximum fee. The alternatives are provided in Table 7 below.
