CF&A Hill Family Ltd. Property Rezoning Request

CF&A Hill Family Ltd. ("Hill Family") is the owner of approximately 7.32 acres of property on the north side of Stirling Road and east of I-95 ("Property") in the City of Dania Beach ("City"). The Hill Family is negotiating the sale of the Property to Master Development, Inc. ("Master Development") for a redevelopment project. The redevelopment plan includes several parcels with a mix of uses. Currently the Property is zoned IROM and C-2. The request is to rezone the Property to C-3 in order to provide for the maximum flexibility for the commercial redevelopment plan. The proposed rezoning meets the rezoning criteria of the City of Dania Beach Land Development Code as documented below.

- (1) The request is consistent with the city's comprehensive plan; and

The Property is designated Regional Activity Center (RAC) on the City of Dania Beach Land Use Plan Map. The RAC is comprised of approximately 1,344 acres located east of I-95 between Griffin Road and Sheridan Street. The permitted uses in the RAC include but are not limited to residential, hotel, commercial, and industrial. The uses permitted in the proposed C-3 zoning district are consistent with the RAC land use plan designation. Therefore, the proposed application is consistent with the City of Dania Beach Comprehensive Plan.

- (2) The request is consistent with all applicable redevelopment plans, corridor plans, neighborhood plans, and master plans approved by the city commission.

The proposed rezoning is consistent with the Community Redevelopment Area plan as discussed below.

- (3) The request would not give privileges not generally extended to similarly situated property in the area, or result in an isolated district unrelated to adjacent or nearby districts.

The area generally located on the north side of Stirling Road between I-95 and Bryan Road has a number of zoning designations including C-3, C-4, IROM and IRO. The proposed rezoning of the Property to C-3 is consistent with the other existing zoning designations in the area and will not create an isolated district which is unrelated to adjacent or nearby districts because other properties in the area have similar zoning designations. Therefore, approval of the rezoning request would not

extend a privilege to the Hill Family or Master Development that has not been extended to other properties in the area.

- a. The request furthers the city's adopted community redevelopment plan, if applicable.

The Property is located in the West Bryan Road redevelopment area of the City Community Redevelopment Area (CRA). The proposed rezoning will facilitate development of commercial uses that are consistent with those uses on the south side of Stirling Road and will not hinder future development in the adjacent Marine area of the CRA.

- b. There exists changed or changing conditions which make approval of the request appropriate.

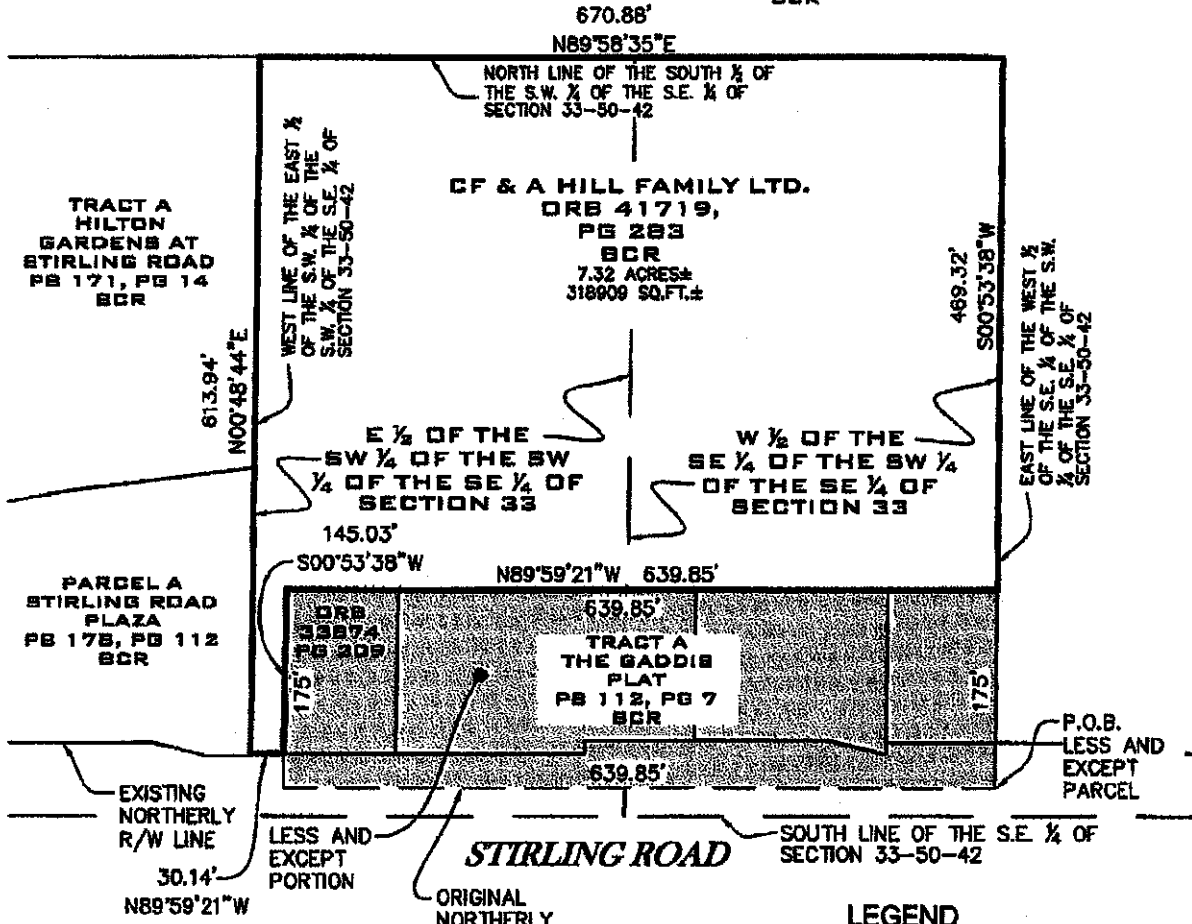

Master Development is working on an assemblage of land in the CRA which fronts on Stirling Road and would be suitable for commercial development. This commercial development would not have a negative impact on the remaining lands in the CRA. The resulting development would provide for increased tax base to support additional improvements in the CRA thereby stimulating redevelopment in the CRA.

- c. The rezoning is appropriate for the orderly development of the city and is compatible with existing (conforming) adjacent land uses, and planned adjacent land uses.

The Property is located along a primary east-west corridor in the City and in close proximity to I-95. Properties to the south are currently developed with commercial uses. Development of the Property with commercial uses is appropriate given the location of the Property in relation to the regional roadway network and the other commercial development. Therefore, the rezoning would provide for orderly development in the CRA which is consistent with adjacent uses.
