Addendum No. 1  
IFB PS-GM-13-14- 116

### Annual Contract for Pavement, Concrete, and Striping

Each recipient of this Addendum No. 1 to the Invitation for Bid (IFB) who responds to the IFB acknowledges all of the provisions set forth in the IFB and agrees to be bound by the terms thereof. This addendum shall modify, clarify, change or add information and clarification and become part of the above referenced IFB.

#### Questions & Answers:

Q1: In reviewing the above referenced bid, the bid form does not have anticipated quantities of work for each item. This will make it very difficult to give competitive prices as items such as thermoplastic has minimum charges. Could you please consider estimating the annual quantities as it will provide a more competitive price for the city?

A1: Estimated quantities are unknown at this time. The intent of the contract is for the Public Services Dept. and the Water/Sewer Utilities Dept. to have available contractors for the various repairs throughout the City on an as needed basis. The Mobilization bid items for each category are to cover the costs associated with typical front end costs, such as minimum charges associated with smaller quantities of work.

Q2: Do we need to bid on all schedule of Unit Bid Items to qualify?

A2: Yes. If there are items left blank on the bid schedule of items Form B3 the proposal will be considered non-responsive.

Q3: How does the award up to 3 contractors work?

A3: The three contractors will be chosen on the best value to the City according to the proposals. The work will be rotated based on the contractors work schedule, unit pricing of the specific work order, and capability of the contractor to perform the work order assignment.

Q4: Under the qualifications it states the contractor must have a state general contractor's license. Would the City accept FDOT prequalification in place of the general contractor's license? The state does not issue licenses for road surface construction contractors (exempt per FL Statute 489.103).

A4: The Invitation for Bid states that either a General Contractor's license OR an Underground Utility Contractors license is acceptable. The City will also accept the FDOT Prequalification for the categories of "Flexible Paving", "Hot in place Resurfacing", "Asphalt Pavement Repairs", "Roadway Paving Rehabilitation", and "Utility Work". Please furnish proof of licensure and/or Prequalification letter from FDOT.

Q5: Is this bid available for all Government Agencies?

A5: PURCHASING AGREEMENTS WITH OTHER GOVERNMENT AGENCIES. This bid may be expanded to include other governmental agencies. All bidders submitting a response to this Invitation to Bid agree that such response also constitutes a bid to **ALL POLITICAL SUBDIVISIONS OF PALM BEACH COUNTY, FLORIDA**, under the same conditions, for the same price(s) and the same effective period as this bid. This agreement in no way restricts or interferes with the right of **ANY POLITICAL SUBDIVISION OF PALM BEACH COUNTY, FLORIDA**, to re-bid any or all items. It is hereby made a part of this Invitation for Bid that the submission of any bid in response to this advertised request constitutes a bid made under the same conditions, for the same Contract price, and for the same effective period as this bid, to **ALL POLITICAL SUBDIVISIONS OF PALM BEACH COUNTY, FLORIDA**.

Q6: Your document state the license requirements would be a General Contractor or Underground Contractor License. I currently have my license in Palm Beach County for Commercial Paving which includes storm drainage; Certificate of Competency # U-21796. Since I am licensed to perform all items on this contract would my license be accepted?

A6: The City will accept Palm Beach County Certified Contractors in the following category: "Paving Contractor". Please furnish proof of licensure with bid submittal.

Q7: Please clarify the bid items for Mobilization. The unit is listed as "Lump Sum" however it may be more appropriate to have the Mobilizations listed "Per Each" for the associated work order.

A7: The Schedule of Bid Items has been revised to reflect Mobilization costs as "EA" (Per Each Work Order). See attached revised Schedule B3.

Q8: Will the City allow the use of "Hot In-Place Asphalt Recycling (HIPAR)"?

A8: The City will accept the use of HIPAR as an approved method for those roadways that meet the specific criteria for HIPAR. See attached revised Schedule of Bid Items Form B3.

Q9: Will densities be required and who will bear the cost of the testing?

A9: Testing requirements will be determined on a case by case basis and the City will be responsible for the scheduling and payment for testing services.

Q10: Please clarify the pounds per square yard (Lbs/SY) for the Double Course Micro-surfacing bid item.

A10: The double course micro-surface shall have a yield of 30-34 LB/SY, per the FDOT Developmental Specification.

Q11: Please clarify if SP9.5 and FC12.5 will be acceptable, as they are more commonly used by FDOT.

A11: The City will accept the use of SP9.5 and FC12.5 asphalt mix designs.

Q12: For clarification, the Schedule of Bid Items (Form B3) has been revised to add the following items:

- MOT Flagman – Paid for per each flagman per day
- Asphalt Milling and Hauloff (1") – to be paid for per square yard milled and hauled off
- Hot In-Place Recycling Treatment and Recycling Agent – to be paid for per square yard and gallon, respectively

CLARIFICATIONS

SECTION 1 – SCOPE OF WORK

The City intends to award contract to the three (3) contractors providing the **most responsive and most responsible and** lowest bid amounts. The selected contractors will receive work orders during the effective term of the contract and prior to the contract's expiration date. **Each work order requires a performance bond equal to 100% of the cost of the work.** The selected contractor(s) will receive specifications for each work order to obtain, review and approve a detailed cost estimate based on the executed contract with unit prices. The project manager will send a notice to proceed to the contractor(s) after obtaining City Manager's office OR City Commission approval as applicable FOR each work order.

Proposers must acknowledge receipt of this Addendum No. 1 in the space provided below. This Addendum forms an integral part of the IFB documents and therefore must be executed and submitted with your proposal.

RE: CERTIFICATE OF QUALIFICATION

Dear Sir/Madam:

The Department of Transportation has qualified your company for the type of work indicated below. ~~Unless your company is notified otherwise, this Certificate of Qualification will expire 6/30/2014. However, the new application is due 4/30/2014.~~

In accordance with S.337.14 (1) F.S. your next application must be filed within (4) months of the ending date of the applicant's audited annual financial statements and, if applicable, the audited interim financial statements. Section 337.14 (4) F.S. provides that your certificate will be valid for 18 months after your financial statement date. This gives a two month period to allow you to bid on jobs as we process your new application for qualification. To remain qualified with the Department, a new application must be submitted subsequent to any significant change in the financial position or the structure of your firm as described in Section 14-22.005(3), Florida Administrative Code.

Your company's maximum capacity rating has been established based on X Audited Reviewed financial statements. To access it, please log into the Contractor Prequalification Application System via the following link:  
<https://www3.dot.state.fl.us/ContractorPreQualification/>

Once logged in, select "View" for the most recently approved application, and then click the "Manage" and "Application Summary" tabs.

**FDOT APPROVED WORK CLASSES:**

DRAINAGE, FLEXIBLE PAVING, GRADING, HOT PLANT-MIXED BITUM. COURSES

**FDOT APPROVED SPECIALITY CLASSES OF WORK:**

NONE

~~You may apply, in writing, for a Revised Certificate of Qualification at any time prior to the expiration date of this certificate according to Section 14-22.0041(3), Florida Administrative Code. Please be advised if certification in additional classes of work is desired, documentation is needed to show that your company has done such work with your own forces and equipment or that experience was gained with another contractor and that you have the necessary equipment for each additional class of work requested.~~

Sincerely,

Juanita Moore, Manager  
Contracts Administration Office
