BROWARD COUNTY POLICY ON THE INSTALLATION OF ROADSIDE MEMORIAL MARKERS

In an effort to facilitate the installation of roadside memorial markers on County right-of-way inside cities and unincorporated areas, the Broward County Traffic Engineering Division has adopted the policy outlined below.

Roadside memorial markers may be installed within the public right-of-way of County roads under the following conditions:

In Unincorporated Areas:

1. A permit will be issued by the Traffic Engineering Division and is valid for up to one year, and may be renewed for up to one additional year only.

Within Cities:

1. The City should have an ordinance allowing the installation of memorial markers on City streets.
2. The City should apply for a permit to Broward County Traffic Engineering Division on behalf of the requesting resident.
3. The Traffic Engineering Division's Studies Section engineer will review and approve the application.
4. The City will be responsible for installing and maintaining the markers.
5. The City will be responsible for renewing the permit or removing the markers when the permit expires.

Please forward this completed form and attachments if any to:
