FY 2016 Per Diem Rates for Florida

(October 2015 - September 2016)

Cities not appearing below may be located within a county for which rates are listed.
 To determine what county a city is located in, visit the National Association of Counties (NACO) website (a non-federal website).

You searched for: **st augustine, Florida**

Your search inquiry returned more than one possibility. Here are the possible rates.

		Max lodging by Month (excluding taxes)												M&IE (5)	
Primary Destination (1, 2)	County (3, 4)	2015			2016										
		Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep		
St. Augustine	St. Johns	\$118	\$118	\$118	\$118	\$118	\$118	\$118	\$118	\$118	\$118	\$118	\$118	\$118	\$59
Standard Rate	STANDARD RATE	\$89	\$89	\$89	\$89	\$89	\$89	\$89	\$89	\$89	\$89	\$89	\$89	\$89	\$51

Footnotes

1. Traveler reimbursement is based on the location of the work activities and not the accommodations, unless lodging is not available at the work activity, then the agency may authorize the rate where lodging is obtained.
2. Unless otherwise specified, the per diem locality is defined as "all locations within, or entirely surrounded by, the corporate limits of the key city, including independent entities located within those boundaries."
3. Per diem localities with county definitions shall include "all locations within, or entirely surrounded by, the corporate limits of the key city as well as the boundaries of the listed counties, including independent entities located within the boundaries of the key city and the listed counties (unless otherwise listed separately)."
4. When a military installation or Government-related facility (whether or not specifically named) is located partially within more than one city or county boundary, the applicable per diem rate for the entire installation or facility is the higher of the rates which apply to the cities and/or counties, even though part(s) of such activities may be located outside the defined per diem locality.
5. *Meals and Incidental Expenses*, see Breakdown of M&IE Expenses for important information on first and last days of travel.

FY 2016 Meals and Incidental Expenses (M&IE) Breakdown

The separate amounts for breakfast, lunch and dinner listed in the chart are provided should you need to deduct any of those meals from your trip voucher. For example, if your trip includes meals that are already paid for by the government (such as through a registration fee for a conference), you will need to deduct those meals from your voucher. Refer to Section 301-11.18 of the Federal Travel Regulation for specific guidance on deducting these amounts from your per diem reimbursement claims for meals furnished to you by the government. Other organizations may have different rules that apply for their employees; please check with your organization for more assistance.

The table lists the six M&IE tiers in the lower 48 continental United States (currently ranging from \$51 to \$74). If you need to deduct a meal amount, first determine the location where you will be working while on official travel. You can look up the location-specific information at www.gsa.gov/perdiem. The M&IE rate for your location will be one of the six tiers listed on this table. Find the corresponding amount on the first line of the table (M&IE Total) and then look below for each specific meal deduction amount.

The table also lists the portion of the M&IE rate that is provided for incidental expenses (currently \$5 for all tiers).

Total	Continental Breakfast/ Breakfast	Lunch	Dinner	IE
\$51	\$11	\$12	\$23	\$5
\$54	\$12	\$13	\$24	\$5
\$59	\$13	\$15	\$26	\$5
\$64	\$15	\$16	\$28	\$5
\$69	\$16	\$17	\$31	\$5
\$74	\$17	\$18	\$34	\$5

This table lists the amount federal employees receive for the first and last calendar day of travel. The first and last calendar day of travel is calculated at 75 percent.

Total	First & Last Day of Travel
\$51	\$38.25
\$54	\$40.50
\$59	\$44.25
\$64	\$48.00
\$69	\$51.75
\$74	\$55.50

Looking for the foreign and outside the continental United States (OCOUS) breakdown chart? Visit FTR Appendix B. (Note: Appendix B breakdowns do not apply to any locations in the continental United States; use the table listed above.)

2016 Standard Mileage Rates for Business, Medical and Moving Announced

IR-2015-137, Dec. 17, 2015

WASHINGTON — The Internal Revenue Service today issued the 2016 optional standard mileage rates used to calculate the deductible costs of operating an automobile for business, charitable, medical or moving purposes.

Beginning on Jan. 1, 2016, the standard mileage rates for the use of a car (also vans, pickups or panel trucks) will be:

- 54 cents per mile for business miles driven, down from 57.5 cents for 2015
- 19 cents per mile driven for medical or moving purposes, down from 23 cents for 2015
- 14 cents per mile driven in service of charitable organizations

The business mileage rate decreased 3.5 cents per mile and the medical, and moving expense rates decrease 4 cents per mile from the 2015 rates. The charitable rate is based on statute.

The standard mileage rate for business is based on an annual study of the fixed and variable costs of operating an automobile. The rate for medical and moving purposes is based on the variable costs.

Taxpayers always have the option of calculating the actual costs of using their vehicle rather than using the standard mileage rates.

A taxpayer may not use the business standard mileage rate for a vehicle after using any depreciation method under the Modified Accelerated Cost Recovery System (MACRS) or after claiming a Section 179 deduction for that vehicle. In addition, the business standard mileage rate cannot be used for more than four vehicles used simultaneously.

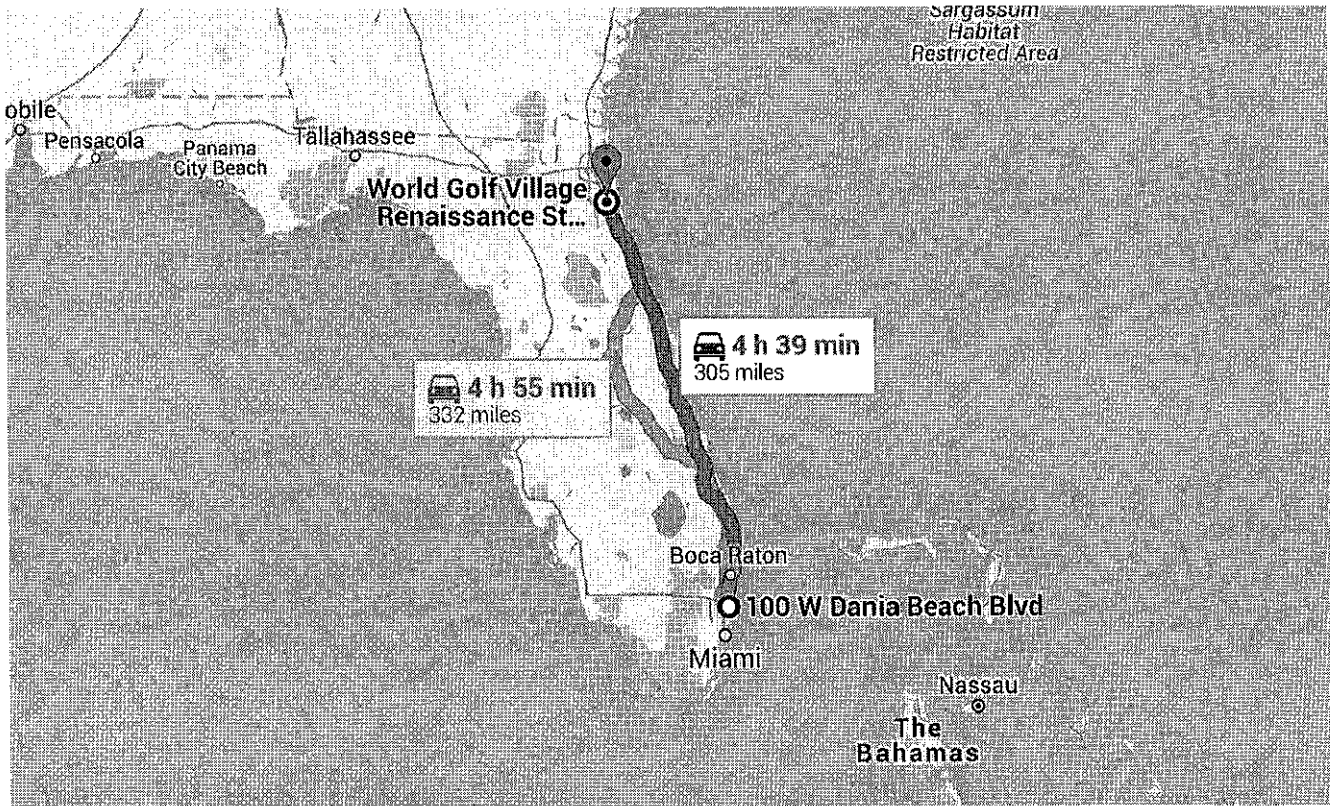

These and other requirements for a taxpayer to use a standard mileage rate to calculate the amount of a deductible business, moving, medical or charitable expense are in [Rev. Proc. 2010-51](#). [Notice 2016-01](#) contains the standard mileage rates, the amount a taxpayer must use in calculating reductions to basis for depreciation taken under the business standard mileage rate, and the maximum standard automobile cost that a taxpayer may use in computing the allowance under a fixed and variable rate plan.
