Re: Letter of Interest related to City Commission Vacancy; (please see attached resume)

Dear Commissioners,

I write to you today to respectfully submit my application for the 2016 City Commission vacancy. As a long time resident and former business owner in Dania Beach, I am able to offer the time and commitment to serve the people of this community. I believe I have the credentials to be part of a Commission tasked with the responsibility to move Dania Beach forward in a meaningful way. While my business experience has taught me to apply critical thinking to complex issues, I also bring a balanced perspective.

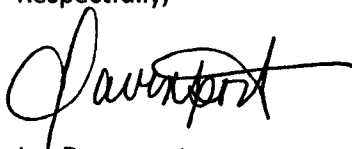

Why am I interested in serving Dania Beach? In a town that has always had the ability to accomplish great things, I can see that things are changing faster than ever. To be honest, I still am trying to digest the airport runway and how it has affected the look and flow when entering DB. From downtown and other area development to quality of life, we have to be on top of the issues now more than ever. I would like to be part of that process.

I am an accreditation consultant in the healthcare industry; I analyze companies' core functions from the inside out. I understand how a good business operates and, conversely, what happens when a company has broken down. That expertise should be valuable in helping run a city.

I have a history of community service--in part, as Dania Beach Chamber President and as the author of the economic development portion of the Downtown Revitalization Main Street Grant. I value the relationships I have built along the way, and am ready to give it another go.

I look forward to an opportunity to speak with you all in person and again, thank you in advance for this consideration.

Respectfully,

Jan Davenport
